DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Group I Figures 3-5, mounting rails attached to peripheral device via an adhesive.

Group II Figures 6-8, mounting rails attached to peripheral device via a first key profile and alignment elements.

Group III Figures 9-10, mounting rails attached to peripheral device via a post and an adhesive film.

Group IV Figure 11, mounting rails attached to peripheral device by a screw.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, figures 1 and 2 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims

are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. During a telephone conversation with Mr. Hu on March, 9 2005 a provisional election was made without traverse to prosecute the invention of Group II, figures 6-8, mounting rails attached to peripheral device via a first key profile and alignment elements, claims 1-14 and 21-30. Affirmation of this election must be made by applicant in replying to this Office action. Claims 15-20 have been withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Allowable Subject Matter

4. Claims 1-14 and 21-30 are allowed.
5. The following is an examiner's statement of reasons for allowance: with respect to claims 1-14 and 21-30, patentability resides, at least in part, in the computer peripheral device having a first key profile and plural alignment elements and the mounting rail having a second key profile adapted to lockingly engage the first key profile, the mounting rail further having alignment elements to engage corresponding alignment elements of the computer peripheral device, in combination with the other limitations of the claims. This application is in condition for allowance except for the presence of claims 15-20 to species non-elected without traverse. Accordingly, claims 15-20 have been cancelled.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT

6. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Art Unit: 2835

Authorization for this examiner's amendment was given in a telephone interview with Mr. Hu on March 9, 2005.

The application has been amended as follows:

Claim 15 (Cancelled)

Claim 16 (Cancelled)

Claim 17 (Cancelled)

Claim 18 (Cancelled)

Claim 19 (Cancelled)

Claim 20 (Cancelled)
